

Hello!

This free review is for those of you who bought my [Top ClickBank Product Reviews 2020 PLR](#)... though I'm giving it away to everyone on my list too.

Just because I'm cool that way.

A few days ago, someone who bought my reviews informed me that the ClickBank product, "Back To Life" had a statement on their affiliate page.

"Due to some recent fraudulent ads, we are currently only accepting new affiliates who we know personally or who have been introduced and recommended by a personal connection."

Now, I don't know the vendor personally, and the only personal connection I have is with the guy who delivers my pizza.

So, I can't help you here. It's going to be difficult to promote this product.

So, I've written this free review for you to promote another back pain product that sells well on ClickBank – **The Back Pain Breakthrough**.

No affiliate needs to jump through hoops for any vendor. They need you. Not the other way around. We've got too much style for that.
